

BIBLIOGRAPHIC REVIEW

OCCUPATIONAL MEDICINE IN EASTERN EUROPEAN JOURNALS, 1998

JOLANTA PRZYŁUSKA

Department of Scientific Information
The Nofer Institute of Occupational Medicine
Łódź, Poland

I. Hygiene evaluation of the work environment

1. *Barlean L, Constantin I, Adam C, Avram G.* Some aspects of occupational hazard in dental practice. Part II. Hygiene conditions in dental surgery and dental laboratory. *J Med Prev* 6: 4, 62–66, 1998, 7 ref. (in English).
2. *Baulić D, Sapunar-Postrunik J, Bilić S.* Significance of the quality of Florisil in organochlorine pesticide analysis. *Arh Hig Rada Toksikol* 49: 4, 319–325, 1998, (in English).
3. *Hindy KT, El-Abssawy AAA.* Relationship between water-soluble and insoluble content of the cement dust and existent control means. *Centr Eur J Occup Environ Med* 4: 2, 170–178, 1998, 6 ref. (in English).
4. *Kuhak A, Blanua M.* Comparison of two extraction procedures for determination of trace metals in soil by atomic absorption spectrometry. *Arh Hig Rada Toksikol* 49: 4, 327–334, 1998, 5 ref. (in English).
5. *Musil J.* The operation of cellular telephone systems (summary of present knowledge). *Pracov Lik* 50: 3, 118–122, 1998, 8 ref. (in Czech).
6. *Sakamoto N, Sakamoto K, Ando S.* Mineral concentrations in the blood of male smokers and non-smoking males and females measured with fluor-X-ray analyser. *Centr Eur J Publ Health* 6: 4, 284–287, 1998, 17 ref. (in English).
7. *van Zoonen P, van Klooster HA, Hoogerbrugge R, Gort SM, van de Wiel HJ.* Validation of analytical methods and laboratory procedures for chemical measurements. *Arh Hig Rada Toksikol* 49: 4, 355–370, 1998, 25 ref. (in English).

II. Experimental pathology

1. *Bojtor I, Kőteles GJ.* Low dose response analysis through a cytogenetic end-point. *Centr Eur J Occup Environ Med* 4: 1, 15–24, 1998, 5 ref. (in English).
2. *Branisteanu R.* The use of quantitative structure-activity relationships (QSAR) in toxicology. The prediction of the potential hazard of a chemical compound. *J Med Prev* 6: 1, 57–67, 1998, 24 ref. (in English).
3. *Ciofu E, Navrotescu T, Bara II, Lupascu M.* The influence of alpha and beta naphtol on serum total cholesterol levels in *Carassius auratus gibelio* Bloch species by acute intoxications. *J Med Prev* 6: 4, 109–113, 1998, 8 ref. (in English).
4. *Creteanu E, Creteanu H, Ionut C, Puica C, Tefas L, Orbai P.* Effect of dietary fibres on some serum minerals (Ca, Mg, Cu, Zn) and tissue integrity in rats with lead poisoning. *Centr Eur J Occup Environ Med* 4: 2, 130–139, 1998, 16 ref. (in English).
5. *Emerit I.* Detection of clastogenic factors in oxidative stress-associated diseases. Usefulness of this assay for the evaluation of anti-oxidants. *Centr Eur J Occup Environ Med* 4: 1, 3–10, 1998, 30 ref. (in English).

6. *Frantik E, Vodičková L, Hornychová M, Nosek M.* Relative subnarcotic potency of solvents predicted by partition coefficients. *Centr Eur J Occup Environ Med* 4: 1, 25–35, 1998, 17 ref. (in English).
7. *Kassa J.* Effect of prophylactic administration of Panpal on the activity of acetylcholinesterase in the diaphragm and various parts of the rat brain in the course of untreated and treated poisoning with cyclosin. *Pracov Léč* 50: 2, 57–61, 1998, 22 ref. (in Czech).
8. *Laza V, Olinic A, Ionut C.* Effect of negative air ions on moderate concentration in laboratory animals treated with zinc and thyram. *Centr Eur J Occup Environ Med*: 1, 59–65, 1998, 11 ref. (in English).
9. *Lohitnavy O, Sinhaseni P.* Increase in lactate dehydrogenase isoenzyme-4 and splenocyte toxicity in methomyl-treated rats. *Arh Hig Rada Toksikol* 49: 3, 231–238, 1998, 11 ref. (in English).
10. *Major J, Jakab MG, Tompa A.* The frequency of premature chromosome condensation in peripheral blood lymphocytes of 400 control and occupationally exposed human donors. *Centr Eur J Occup Environ Med* 4: 2, 146–154, 1998, 36 ref. (in English).
11. *Malachová K.* Mutagenicity tests for bacteria and the detection of genotoxicity of industrial complex mixtures containing PAHs. *Centr Eur J Publ Health* 6: 4, 307–313, 1998, 16 ref. (in English).
12. *Matek M, Blanuša M.* Comparison of two methods for destruction of biological material used to determine selenium. *Arh Hig Rada Toksikol* 49: 4, 301–305, 1998, 7 ref. (in English).
13. *Muttray A, Jung D, Rose DM, Hommel G, Konietzko J.* Acute effects of exposure to 360 ppm isopropanol on healthy men. *Centr Eur J Occup Environ Med* 4: 3, 288–293, 1998, 10 ref. (in English).
14. *Selypes A, Tökés Füzesi M, Serényi P, Ember I.* Investigations of the total RNA obtained from testes of cadmium-exposed mice for expression of the c-myc and p53 genes. *Centr Eur J Occup Environ Med* 4: 1, 36–44, 1998, 24 ref. (in English).
15. *Simirad S, Gradinariu F, Roman I, Soitu C, Scutaru B.* *In vivo* genotoxicity testing of trichlorfon combined with diazepam in rodents. *J Med Prev* 6: 3, 98–102, 1998, 17 ref. (in English).
16. *Simirad S, Roman I, Soitu C.* *In vitro* genotoxicity testing of some pesticides in human lymphocyte cultures. *J Med Prev* 6: 2, 94–100, 1998, 16 ref. (in English).
17. *Stanović S, Boranić M.* Long-term bone marrow culture. *Arh Hig Rada Toksikol* 49: 3, 265–275, 1998, 33 ref. (in Croatian).
18. *Szitényi Z, Nemes C, Rozlosnik N.* Lead detoxification: the role of essential metals and metallothionein. *Centr Eur J Occup Environ Med* 4: 1, 51–58, 1998, 20 ref. (in English).
19. *Ungváry G, Tátrai E, Szakmáry É.* Offspring damaging mechanism of arsenic: the effects of prenatal arsenic exposure on desmogenic and chondrogenic ossification in the rat. *Centr Eur J Occup Environ Med* 4: 1, 11–14, 1998, 16 ref. (in English).
20. *Urban P, Lukáš E, Roth Z.* Does acute exposure to electromagnetic fields emitted by a mobile phone influence visual evoked potentials? A pilot study. *Centr Eur J Publ Health* 6: 4, 288–290, 1998, 3 ref. (in English).
21. *Vaglenov A, Carbonell E.* Radiosensitivity of young and adult subjects. *Centr Eur J Occup Environ Med* 4: 4, 361–371, 1998, 38 ref. (in English).
22. *Zechner-Krpan V, Kniewald J, Kniewald Z.* Application of anterior pituitary cell culture in toxicological research. *Arh Hig Rada Toksikol* 49: 3, 219–229, 1998, 21 ref. (in English).
23. *Zieliński H, Jakubowski K.* Adaptation to ozone in rats and its association with corticosterone in blood plasma. *J Med Prev* 6: 3, 91–97, 1998, 17 ref. (in English).

III. Occupational pathology

1. *Bátora J, Schmidt K, Kubík J, Jakubis P.* Angiosarcoma of the liver in workers occupationally exposed to vinyl chloride (in Slovakia). *Centr Eur J Occup Environ Med* 4: 3, 252–264, 1998, 20 ref. (in English).
2. *Belowski J, Kubiak R, Szczeklik J, Smolik E, Mielżyńska D, Baj M, Szczesna A.* 1-Hydroxypyrene as biomarker of carcinogenesis in steel factory workers. *Centr Eur J Occup Environ Med* 4: 3, 280–287, 1998, 19 ref. (in English).
3. *Botezatu E, Grecea C, Iacob O.* Exposure to radon and thoron of workers in coal heated power plants. *J Med Prev* 6: 2, 23–28, 1998, 4 ref. (in English).

4. *Buchancová J, Klimentová G, Knížková M, Meško D, Gáliková E, Kubík J, Fabianová E, Jakubis M.* Health status of workers of a thermal power station chronically exposed to arsenic and other fuel-emitted elements from fuel. *Centr Eur J Publ Health* 6: 1, 29–36, 1998, 40 ref. (in English).
5. *Danek V.* On the problems of using the cold test in the diagnosis of vibration vascular damage. *Pracov Lik* 50: 3, 134–139, 1998, 16 ref. (in Czech).
6. *Fahmy FC, El-Sharkawy MF, Noweir KH, Moselhi M.* Validity of the threshold limit value of malathion for chronically exposed industrial workers in Egypt. *Centr Eur J Occup Environ Med* 4: 4, 395–402, 1998, 14 ref. (in English).
7. *Fenclová Z.* General health of workers exposed to vinyl chloride. *Pracov Lik* 50: 1, 8–12, 1998, 20 ref. (in Czech).
8. *Garavini D, Fracchia G, Franco G.* Biological hazard in the health care environment: The Italian approach. *Centr Eur J Occup Environ Med* 4: 3, 247–251, 1998, 5 ref. (in English).
9. *Hanovcová I, Chylková V, Tejral J, Andrys C, Procházková J, Turková M, Srb V, Ettlerová E, Kokeš J.* Long-term monitoring of the immune reactivity of stainless steel welders. *Centr Eur J Publ Health* 6: 1, 51–56, 1998, 51 ref. (in English).
10. *Hoffmann B, Schäcke G.* Normal values as a keystone of health hazard assessment in occupational medicine. *J Med Prev* 6: 1, 48–56, 1998, 13 ref. (in English).
11. *Jakšić S, Uhitil S, Živković J.* Bacterial pollution of cutting fluids: a risk factor for occupational diseases. *Arh Hig Rada Toksikol* 49: 3, 239–244, 1998, 16 ref. (in English).
12. *Kákossy T, Németh L, Hazay B, Posgay M, Martin J, Lászlóffy M.* Hand-arm vibration syndrome in tunnel-miners. *Centr Eur J Occup Environ Med* 4: 1, 91–98, 1998, 13 ref. (in English).
13. *Kašuba V, Rozgaj R, Šentija K.* Chromosomal aberrations in medical staff occupationally exposed to X-rays: a follow-up study. *Arh Hig Rada Toksikol* 49: 1, 1–8, 1998, 14 ref. (in English).
14. *Lebedová J, Dlouhá B.* Rhinomanometry and occupational allergic rhinitis. *Pracov Lék* 50: 1, 4–7, 1998, 11 ref. (in Czech).
15. *Macan J, Kanceljak-Macan B, Žuškin E, Milković-Kraus S.* Sensitization to storage mites in the urban work environment. *Arh Hig Rada Toksikol* 49: 1, 27–32, 1998, 12 ref. (in English).
16. *Mester A, Németh L, Makó E, Posgay M, Kiss K.* High resolution computed tomography (HRTC) of pneumoconiosis. *Centr Eur J Occup Environ Med* 4: 2, 114–129, 1998, 20 ref. (in English).
17. *Mihalache C, Popescu I, Constantin B, Oprea V, Baltag D, Borza V, Maftei A.* Clinical and biological findings in chronic cumulative exposure. *J Med Prev* 6: 2, 50–58, 1998, 11 ref. (in English).
18. *Nosko M, Altunkova I, Baltadjieva D, Liapin M, Bocheva S, Tanev M.* Immune mechanisms of the occupational sensitization with methylene-dyphenyl isocyanate (MDI). *Centr Eur J Publ Health* 6: 3, 199–201, 1998, 7 ref. (in English).
19. *Rosecrance JC, Cook TM.* Upper extremity musculoskeletal disorders: occupational association and a model for prevention. *Centr Eur J Occup Environ Med* 4: 3, 214–231, 1998, 86 ref. (in English).
20. *Sethre T, Läubli T, Riediker M, Hangartner M, Krueger H.* Neurobehavioral effects of low level solvent exposures in a foundry. *Centr Eur J Occup Environ Med* 4: 4, 316–327, 1998, 15 ref. (in English).
21. *Simirad S, Cordoneanu C, Roman I, Soitu C, Ghitler N.* Chromosome aberrations induced in workers occupationally exposed to volatile compounds in a furniture plant. *J Med Prev* 6: 4, 67–71, 1998, 9 ref. (in English).
22. *Szkmáry I, Ungváry G.* Reproduction effect of ethylene oxide in health care employees. *Centr Eur J Occup Environ Med* 4: 4, 307–315, 1998, 23 ref. (in English).
23. *Tenchova VB, Peikova VP, Pavlova SD, Simeonov YP.* Plasma lipid peroxide level in workers exposed to lead. *Centr Eur J Occup Environ Med* 4: 1, 45–50, 1998, 13 ref. (in English).
24. *Urban P, Johanning E, Lukaš E, Tencza A.* A comparison of the incidence of occupational carpal tunnel syndromes in the Czech Republic and the USA. *Pracov Lék* 50: 4, 175–180, 1998, 12 ref. (in Czech).
25. *Vangelova KK.* Catecholamines and 11-oxy corticosteroid excretion rates in working women. *Centr Eur J Occup Environ Med* 4: 4, 354–360, 1998, 17 ref. (in English).
26. *Vejtlupkova J, Urban P.* Occupational diseases in the Czech Republic in 1997. *Pracov Lik* 50: 3, 113–117, 1998, (in Czech).

27. Vujović M, Vujović I, Kuzmanić I. New technologies in diagnosing occupational asbestosis. *Arh Hig Rada Toksikol* 49: 3, 251–258, 1998, 10 ref. (in English).
28. Yaneva S, Panev TI, Popov TA, Michailova AK, Georgieva TP. Assessment of the working conditions of seamen on chemical cargo tankers. *Centr Eur J Occup Environ Med* 4: 4, 376–382, 1998, 5 ref. (in English).
29. Zimmermann CL, Hatlar KM, Cook TM. A comparison of work-related musculoskeletal disorders among operating engineers in the United States and Slovakia. *Centr Eur J Occup Environ Med* 4: 3, 232–246, 1998, 18 ref. (in English).
30. Žuškin E, Mustajbegović J, Kern J, Dečković-Vukres V, Vitale K. Respiratory function in textile workers processing synthetic fibres. *Arh Hig Rada Toksikol* 49: 1, 33–43, 1998, 28 ref. (in Croatian).

IV. Epidemiological studies

1. Carpenter DO. Health effects of metals. *Centr Eur J Publ Health* 6: 2, 160–163, 1998, 41 ref. (in English).
2. Constantin B, Mihalache C, Popa D, Tugelea R. A follow-up of silicosis morbidity among miners in the North-eastern Romania (Lesu Ursului). *J Med Prev* 6: 4, 56–61, 1998, 7 ref. (in English).
3. Guliš G, Fitz O. Cancer incidence around the nuclear power plant in Jaslovsk Bohunice. *Centr Eur J Publ Health* 6: 3, 183–187, 1998, 8 ref. (in English).
4. Guliš G, Fitz O, Wittgruber J, Suchanová G. Colorectal cancer and environmental pollution. *Centr Eur J Publ Health* 6: 3, 188–191, 1998, 28 ref. (in English).
5. Holcátová I, Bencko V. Environmental epidemiology of malignancies. The Central European perspective. *Centr Eur J Publ Health* 6: 1, 13–17, 1998, 28 ref. (in English).
6. Ivan A, Azoicai D, Costan A. The prevalence of arterial hypertension and some risk factors in urban and rural areas in the North-eastern Romania. *J Med Prev* 6: 1, 107–115, 1998, 10 ref. (in English).
7. Korol N. Results of a ten year monitoring of health effects among Chernobyl child victims. *Centr Eur J Publ Health* 6: 2, 108–110, 1998, 5 ref. (in English).
8. Koteles GJ. The low dose dilemma. *Centr Eur J Occup Environ Med* 4: 2, 103–113, 1998, 64 ref. (in English).
9. Kubik A, Pleško I. Trends in cigarette sales and lung cancer mortality in four Central European countries. *Centr Eur J Publ Health* 6: 1, 37–41, 1998, 14 ref. (in English).
10. Kubina J. The possibilities of using the survival analysis method for the evaluation of workplace risk. *Pracov Léč* 50: 3, 123–128, 1998, 6 ref. (in Czech).
11. Lungu E, Onete R, Mardare D, Postelnicu E, Alexandrescu R. Schoolchildren's attitude concerning health education in schools. *J Med Prev* 6: 1, 25–30, 1998, 5 ref. (in English).
12. Menzlová M, Šplíchalová A, Tomáková H. A longitudinal study on the evolution of blood pressure in miners after their replacement from deep underground mines. *Pracov Léč* 50: 4, 169–174, 1998, 21 ref. (in Czech).
13. Neagu C, Rusea D, Negru M, Simescu M, Nicolaescu E, Vijiiala I. The implication of nitrites and organochlorine pesticides in goitre etiopathology. *Centr Eur J Publ Health* 6: 2, 172–174, 1998, 4 ref. (in English).
14. Pintér A, Horváth A, Szabó Z, Dura G, Horváth V. Current practice of health risk assessment of soil pollution in Hungary. *Centr Eur J Publ Health* 6: 2, 144–147, 1998, 7 ref. (in English).
15. Salagean SS, Burkhardt R, Mocsy I, Muntean N. Epidemiological study of thyroid cancer in Cluj county after Chernobyl: A 10-year follow-up. *Centr Eur J Occup Environ Med* 4: 2, 155–160, 1998, 10 ref. (in English).
16. Šarić M, Fugaš M, Drevenkar V. Human exposure assessment location (HEAL) – historical review. *Arh Hig Rada Toksikol* 49: 1, 45–64, 1998, 35 ref. (in English).
17. Šmerhovský Z, Cikrt M, Vavěřnov J. Health effects of lead coming from mining wastes. *Centr Eur J Publ Health* 6: 2, 168–171, 1998, 11 ref. (in English).
18. Surdu S, Gurzau A, Gurzau ES, Curseu D, Faraian D, Bereczki A, Criotea C, Bodor E, Zeic A. Risk assessment/communication in a lead contaminated area of Romania. *Centr Eur J Publ Health* 6: 2, 123–126, 1998, 6 ref. (in English).

19. Švejdárová H, Bencko V. Comparison of environmental quality in the districts of the Czech Republic with mortality pattern and selected health parameters. *Centr Eur J Publ Health* 6: 4, 300–306, 1998, 23 ref. (in English).
20. Szabó J, Bausz M, Ispán O, Süveges I, Szabó LD. Increasing number of cataract extractions in a Hungarian ophthalmology clinic between 1987 and 1996. *Centr Eur J Occup Environ Med* 4: 1, 66–81, 1998, 27 ref. (in English).
21. Törnqvist M, Helleberg H, Ehrenberg L. Estimation of risks of health effects, particularly cancer, from air pollutants. *Centr Eur J Publ Health* 6: 2, 152–156, 1998, 29 ref. (in English).
22. Zapponi GA, Coglianò J. Dose-response analysis and biologically-based risk assessment for initiator and promoter carcinogens. *Centr Eur J Publ Health* 6: 4, 317–320, 1998, (in English).

V. Diagnostics and therapy of acute poisoning

1. Pelclová D. Antidotes in industrial poisoning: Part I: Antidotes for the treatment of cyanide poisoning. *Pracov Lék* 50: 3, 140–142, 1998, 5 ref. (in Czech).

VI. Occupational physiology, psychology, sociology and ergonomics

1. Cvičelová M, Hatlar K. Anthropometric parameters of women working in agriculture. *Pracov Lék* 50: 2, 62–65, 1998, 14 ref. (in Slovak).
2. Hladky A, Procházka B. Effects of using screen filters on visual and musculoskeletal complaints in VDU workers. *Pracov Lék* 50: 3, 129–133, 1998, 4 ref. (in Czech).
3. Hladky A, Procházka B. Using a screen filter positively influences the physical well-being of VDU operators. *Centr Eur J Publ Health* 6: 3, 249–259, 1998, 3 ref. (in English).
4. Popescu G, Ghinea C, Mogaldea I. The value and limits of subjective indicators in preventive medicine. *J Med Prev* 6: 3, 62–69, 1998, 11 ref. (in Romanian).

VII. The industrial health care system

1. Bláha K. Strategies for risk assessment and risk reduction in the Czech Republic. *Centr Eur J Publ Health* 6: 2, 157–159, 1998, 10 ref. (in English).
2. Carpenter DO, Bláha K, Buekens A, Cikrt M, Damstra T, Dellinger B, Sarofim A, Suk WA, Wykes H, Zejda J. Utilization of hazardous wastes in Central and Eastern Europe: Technology and health effects. *Centr Eur J Publ Health* 6: 2, 77–78, 1998, 4 ref. (in English).
3. Dumitrescu A, Qaramah A, Vacarel M, Moroianu AM, Georgescu O, Petrescu M. Management of healthcare waste in Romania. *Centr Eur J Publ Health* 6: 2, 88–91, 1998, 4 ref. (in English).

VIII. Environmental hazards

1. Curseu D, Surdu S, Popa S, Cristea C, Bereczki A. Cadmium exposure of children living in an area with non-ferrous metallurgy. *J Med Prev* 6: 3, 47–53, 1998, 13 ref. (in English).
2. Dellinger B, Taylor PH. Chemical aspects of combustion of hazardous wastes. *Centr Eur J Publ Health* 6: 2, 79–87, 1998, 60 ref. (in English).
3. Deneva SI, Dimov VI, Kapurdov VV, Kamchev KG, Goranova RT, Kostova MG. On the evaluation of ambient air asbestos pollution in the vicinity of industrial plants. *Centr Eur J Occup Environ Med* 4: 4, 372–375, 1998, 6 ref. (in English).
4. Deneva SI, Kolev KC, Kapurdov BI. Environmental exposure and distribution of the asbestos fibres in the lungs. *Centr Eur J Occup Environ Med* 4: 3, 265–269, 1998, 8 ref. (in English).
5. Diaconu R, Palamaru I, Leanca M, Iorga I, Dobrescu D. The influence of solid wastes on the quality of surrounding environment. *J Med Prev* 6: 2, 29–38, 1998, 15 ref. (in English).
6. Dura G, Kambourova V, Vassilev K, Tasheva M, Simeonov L. Assessment of environmental exposure to pesticides and categories of hazard to aqueous organisms, based on exposure modelling. *Centr Eur J Occup Environ Med* 4: 4, 328–342, 1998, 21 ref. (in English).

7. *Fiala J, Hrubá D, Rézl P.* Cadmium and zinc concentrations in human placentas. *Centr Eur J Publ Health* 6: 3, 241–245, 1998, 23 ref. (in English).
8. *Horváth A.* Some data on the health aspects of hazardous waste incineration in Hungary. *Centr Eur J Publ Health* 6: 2, 92–95, 1998, (in English).
9. *Kambourova V, Simeonov L, Dura G, Vassilev K, Tasheva M.* A comparative analysis of hazardous effect of pesticides of defined concentrations on aquatic life. *Centr Eur J Occup Environ Med* 4: 4, 343–353, 1998, 28 ref. (in English).
10. *Kameneckas J, Rasteniene J.* Decision-making strategy for ecological risk assessment in Kaunas City. *Centr Eur J Publ Health* 6: 2, 96–102, 1998, 22 ref. (in English).
11. *Kilani MK, Hamid KA.* Correlation between germ count values and meteorological or chemical air pollution data. *Centr Eur J Occup Environ Med* 4: 4, 383–394, 1998, 23 ref. (in English).
12. *Matković V, Matković N, Kontošić I, Jonjić A, Matković V.* The effect of air pollution on ventilatory function in non-smoking women. *Arh Hig Rada Toksikol* 49: 1, 19–25, 1998, 19 ref. (in English).
13. *Mkrtchian A, Aslanian H, Bakunts N.* Management of industrial and domestic solid wastes in the Republic of Armenia. *Centr Eur J Publ Health* 6: 2, 111–112, 1998, (in English).
14. *Papadopol V, Tuchendria E, Palamaru I.* Relationships between the levels of some essential elements (Fe, Zn, Mg) and some aspects of the intellectual development of pupils. *J Med Prev* 6: 2, 39–44, 1998, 18 ref. (in English).
15. *Reichrtová E, Ondřejčáková I.* Respiratory system response to ambient air magnesite particulates. *Centr Eur J Publ Health* 6: 3, 238–240, 1998, 16 ref. (in English).
16. *Rychlíková E, Fejfušová J, Šubrt P.* Health risk assessment in evaluation of metals in TSP. *Centr Eur J Publ Health* 6: 3, 131–234, 1998, 12 ref. (in English).
17. *Safe S, Wilson CL.* Health effects and risk assessment of halogenated aromatic hydrocarbons. *Centr Eur J Publ Health* 6: 2, 113–116, 1998, 18 ref. (in English).
18. *Shakour AA, El Taieb NM, Mohamed SK, Zakey AS.* Investigation of air quality in the industrial area North Cairo. *Centr Eur J Occup Environ Med* 4: 2, 192–204, 1998, 22 ref. (in English).
19. *Shakour AA, Zakey AS.* The relationship between sulphur dioxide and sulphate in the ambient air in Cairo. *Centr Eur J Occup Environ Med* 4: 1, 82–90, 1998, 26 ref. (in English).
20. *Stacey P, Tylee B.* Development in harmonisation of proficiency testing (for vapours, gasses, and dusts) in the European Union. *Arh Hig Rada Toksikol* 49 4, 307–317, 1998, 5 ref. (in English).
21. *Stawarski A, Iwańczak F, Gasiński J, Horbaczewska-Szelachowska D, Andrzejak R.* Clinical analysis of children living in the lead polluted environment. *Centr Eur J Publ Health* 6: 2, 119–122, 1998, 18 ref. (in English).
