Textile Research

Vol. XIII, Nov. 1942-Dec. 1943

RESEARCH REPORTS, ARTICLES AND BOOK REVIEWS

Subject Index

ACTIVITIES OF THE INSTITUTE		NO.	PAGE
Applied Research Program	14	12	
Malcolm E. Campbell: Joins staff of Institute	6	6	
Cotton Carding: Announcement of the Institute's cotton carding	13	11	
Industry-Wide Research: Announcement of Institute's five-point program	8	2	
Industry-Wide Research Program: Institute's plan for linking research with higher education	11	2	
Intensive Study of Cotton Carding: Digest of Malcolm Campbell's paper given at 1943 annual meeting	14	14	
New Economic Research Committee: Robert R. West assumes chairmanship	11	4	
Properties of Clothing Fabrics: Digest of symposium at 1943 annual meeting	14	21	
Report to Members: President's annual report given at 1942 annual meeting	2	2	
Research in the South: Research developments and interests among the southern mills as reported to the president of the Institute during a trip through the South	1	2	
Research Manager: Giles E. Hopkins joins Institute staff	12	11	
Textile Research Institute: Digest of 1943 annual report of President Blanchard	14	4	
Textile Research Institute: Report of 1943 Annual Meeting	14	2	
Thirteenth Annual Meeting: Report of 1942 annual meeting	2	8	
Treasurer's Report: For fiscal year ending Sept. 30, 1942	2	44	
Wool Program: Digest of discussion at 1943 annual meeting	14	19	
Douglas G. Woolf Joins Institute	12	2	
GENERAL			
Army Service Forces: Functions of research and development described by Lt. Col. Frank M. Steadman	7	10	
The British Textile Industry: Excerpts from Address by Samuel Courtauld before British Rayon Federation	11	8	
Committee for Economic Development: Outline of organization and functions of a working committee established by industry	6	2	
Fundamental Research: Digest of address by Dr. Hugh S. Taylor at 1943 annual luncheon of Textile Research Institute	14	8	
Growth of Research: Digest of address by Dr. C. E. K. Mees at 1942 Annual Meeting of Textile Research Institute	2	12	
Healthy Research Competition: Douglas G. Woolf clarifies the relationship of research organizations within the textile industry and emphasizes the need of coordination	16	16	
Industrial Cotton Fabrics: by B. L. Whit-tier	13	12	
Man-Made Fibers: H. R. Mauersberger's suggestion for classification of Fibers	6	10	
A Modern Conditioning Cabinet: Description of homemade cabinet in use at Manville-Jenckes Corp.	13	18	
Modern Textile Technology: I. Outline of modern methods and modern instruments for research	2	20	
Modern Textile Technology. II. Merging Molecules: Discussion of fiber properties	4	4	
The New Textile Technology: Discussion of physical structure and properties of fibers	8	11	
Patents of Foreign Nationals: Announcement of Alien Property Custodian plan for making available seized Patents	4	13	
Planning Corporate Research and Development: (A series of articles by H. Wick-liffe Rose)			
Inter-research—The Present Need	8	4	
Research and the Patent System—Part I—The Individual Inventor	9	9	
Research and the Patent System—Part II—Patents and the Corporation	10	2	
Research and the Patent System—Part III—The Commercialization of Patents	11	10	
The Future of the Corporation	12	5	
Research Manpower in High Schools: Practical plan as applied at Alexander Smith & Sons Carpet Co.	3	2	
Technological Mobilization: Review of Senate Bill S.2721 proposing Government controlled research facilities	4	2	
Tendering of Cotton Fabrics: Digest of paper by Lt. Col. Frank M. Steadman at 1942 Annual Meeting of Textile Research Institute	2	15	
Will Post-War Organization of Textile Companies Be Vertical or Horizontal?	14	30	
NEW PRODUCTS, PROCESSES, AND TEST METHODS			
Cleaning Cotton at the Gin: Description of new device	7	2	
Continuous Indigo Piece Dyeing: Description of new process	5	2	
Gold Lace for the Navy	9	2	
Impact Testing of Textiles	8	21	
Measuring Fiber Fineness: A new method for rapid testing	1	12	
Plastic Bonded Cotton Fiber: Description of new method of forming a thin lap of parallel cotton fibers for use in plastic laminates	2	25	
Properties of Bubbli: Digest of talk by Joseph B. Quig	3	8	
RESEARCH REPORTS			
Acid Dyeing of Wool: Studies of the reactions in complex dye baths	2	33	
Chemically Modified Wool: Report of process developed by Research Associates, Textile Foundation	1	21	
Combination of Sheet with Blanket: Tests indicate improved warmth for outdoor use through combination	6	13	

	NO.	PAGE
Controlled Molecular Length: Studies of mechanical properties of cellulose acetate films in relation to molecular chain length, by Research Associates, Textile Foundation.	3	17
Cotton Fiber Strength Study: Report of U. S. Dept. of Agriculture tests using the Pressley tester.	9	17
A Cotton Slasher Blanket: Report of tests of two types of cotton blankets for covering squeeze rools on a slasher.	1	4
The Drying of Textiles: Report of textile drying research conducted by Textile Research Institute.	5	15
Effect of Storage on Fabrics: Report from Bureau of Home Economics, U. S. Dept. of Agriculture.	6	20
Infra-Red Drying of Textiles: Results of tests conducted with gas-generated radiant heat.	10	18
Infra-Red Drying: Letter from Red-Ray Mfg. Co. regarding article by Stefan L. Grapnel in Aug. 1943 TEXTILE RESEARCH.	12	21
The Lateral Expansion of Cotton Fibers under Tension: Report of study conducted at the Southern Regional Research Laboratory.	11	21
Part-Wool Blankets for Barracks: Comparison of quantities of standard all-wool army blanket with those of blankets constructed of a mixture of wool and cotton.	5	10
The Physical Properties of Nylon: Survey of literature and compilation of data.	7	24
Proper Starching Technique: Effect of starching variables on fabric stiffness.	11	26
The Quality of Cotton Yarn: effects of varying the percentage of comber waste on.	8	16
Strength of Cotton Fiber Bundles: Data on tensile strengths of cotton.	4	18
The Stress-Strain-Time-Temperature and Humidity Behavior of Textile Fibers: An explanation of the book "Elastic and Creep Properties of Filamentous Materials and Other High Polymers".	13	2
Structure of the Wool Fiber as Revealed by Electron Microscope.	12	15
Warmth of Blanket Materials: Digest of report by Ephraim Freedman of R. H. Macy & Co.	13	21
Warmth Without Weight: Tests of application of reflective films to textiles.	7	16
Water-Repellent Finishes: Effects of water temperature in evaluating the efficiency of finishes.	10	11
Wool Protein with Weak Acids: Studies of Research Associates, Textile Foundation.	4	24

RESEARCH AIDS

Load-Elongation Testing of Fibers. Illustrated description of autographic single fiber tester.	9	20
Small Mobile Electron Microscopes. Illustrated description of R. C. A. and G. E. portable and semi-portable models.	5	13
Tex Test Kit to Identify Fabrics. Illustrated description of pocket size textile identification kit.	4	22
Thermal Transmission Tester. Apparatus in use at Bureau of Standards.	10	16
Weathering Tester. Description of twin-arc Weather-Ometer.	7	15

BOOK REVIEWS

Allocations and Priorities Guide.	13	23
A. S. T. M. Standards.	7	15
Bulletin of the Wool Manufacturers.	12	24
Cellulose Chemistry.	7	14

	NO.	PAGE
The Chemical Formulary.	13	24
The Chemistry of Natural Coloring Matters	6	18
The Dermatitis Test as a Necessary Routine Check-Up.	12	25
Functional Properties of Clothing Fabrics.	14	21
The Fireproofing of Textiles.	9	20
Glue and Gelatine.	13	24
Industrial Research.	1	9
Manual of Laboratory Glass-Blowing.	12	25
Mercerizing.	3	16
The Microscope and Its Use.	12	24
Natural and Synthetic High Polymers	6	19
Photoelectric Tristimulus Colorimetry With Three Filters.	1	20
Practical Emulsions.	10	16
Science Remakes Our World.	3	15
Substitutes.	4	22
Synthetic Adhesives.	13	24
Tex Test Kit.	4	22
X-Rays in Research and Industry.	7	14

Rayon Yarn			Sulfur: Separation and Determination of Protein Sulfur, Sulfide Sulfur, and Other Sulfur in Sodium Sulfide Dispersions of Keratins.....	5	37
Effect of Ageing on Rayon Yarn.....	3	39	Surface-Active Agents.....	6	39
Elasticity, Creep and Recovery of Acetate and Viscose Rayon Yarns.	10	37	Agents Manufactured in America and Commercially Available.....	6	39
Throwing Rayon Yarns for the Hosiery Trade.....	13	32	Non-Ionic Agents.....	8	34
Reagents: Swelling-Staining Reagent for Studying Fiber Structure.....	8	31	Surface Areas: New Method for Measuring Specific Surfaces.....	4	37
Research: Textile Research and Development.....	13	32	Synthetic Detergents, Cooperative Studies on a Laboratory Method for Evaluating.....	11	40
Resiltext: Textile Inventions Solve War Problems. Resiltext—an Important New Textile Material.....	12	32	Synthetic Fibers: Effect of the Degree of Polymerization on the Mechanical Properties of Regenerated Cellulose Fibers.....	5	39
Resins			Internal Structure of Synthetic Fibers and Its Influence on Their Physical Properties.....	1	38
Melamine-Formaldehyde Condensation Products.....	8	33	Properties of Synthetic Fibers—Charts to Aid Textile Men in Choice of Synthetics for Specific Applications.....	13	30
Phenol Resins and Resin Emulsions and Their Application to Textiles.....	7	36	Symposium of Man-Made Fibers. Part I.....	6	46
Textile Applications of Natural and Synthetic Resins.....	6	43			
Vinyl-Resins—Their Uses in Textile Finishing.....	14	39			
S					
Scouring: Preliminary Cleaning (of Textiles) with Fat-Saving Washing Agents.....	10	39			
Silverfish, Protecting Textiles from.....	6	44			
Sizing, Examination of China Clay for.....	10	39			
Skin Irritation					
Dermatitis from New Synthetic Resin Fabric Finishes.....	10	39			
Tickle in Wool Knit Goods. A Partial Answer to the Question of Why Some Fabrics Cause Skin Irritation	9	30			
Slasher					
Cotton Slasher Blanket.....	4	16			
Determination of Slasher Speeds and Temperatures for Different Yarn Numbers.....	7	37			
Soap, War Widens Usage in Textile.....	7	35			
Spectrophotometer in the Textile Industry.	5	38			
Spinning					
Fiber from the Spinner's Viewpoint...	11	38			
Power Requirements for Spinning.....	14	40			

	NO.	PAGE		NO.	PAGE
Synthetic Fibers for the Post-War World Will Be Tailor-Made to Fit Specific Requirements.....	13	30	Viscose: Change in the Viscosity of Viscose by Addition of Reagents.....	3	35
Synthetics: 1942—The Year's Progress in Rayon, Nylon and Other Synthetic Yarns.....	7	40	Viscose Rayons, Vat Dyeing of.....	5	43
Directory of Synthetic Rubbers.....	12	32	Viscosity		
Molecular Weights of High Polymers.....	13	27	Molecular Weights and Intrinsic Viscosities of Polyisobutylenes.....	8	33
Textile Applications of Natural and Synthetic Resins.....	6	43	Viscosity of Starches. Determination in a Rotating Cylinder Viscometer.....	5	37
			Viscosity of Dilute Solutions of Long-Chain Molecules. IV. Dependence on Concentration.....	5	40
T					
Tendering: Problem of Tendering of Cotton Fabrics.....	6	48	W		
Testing			Washing: Comparison of an Aryl Sulfonate and Soap for the Washing of Fabrics in Hard Water.....	7	35
Abrasion Test for Textiles.....	6	36	Water Softeners		
Cellulose, Action of Light on. Application of Copper Number Determination to Cellulose Acetate.....	12	26	Alkalies Containing Water Glass for Use in Industrial Laundering Waters.....	11	40
Fade-Ometers, Calibration of.....	5	36	Maintenance of Water Softeners.....	5	48
Comparison of Methods for the Determination of Water Absorbency by Terry Towels.....	10	29	Weaving		
Cooperative Studies on a Laboratory Method for Evaluating Synthetic Detergents.....	11	40	Silk and Rayon. Avoiding Damages in Rayon Weaving.....	7	38
Cotton Fiber-Length Determination Using the Fibrograph.....	10	29	Useful Hints on Quality and Quantity in the Weave Room.....	6	47
Determination of the pH of Textile Materials.....	14	37	Weaving of Nylon Yarns.....	5	46
Development of Suitable Fire Tests for Visual Deception Materials Such as Osunburg Cloth.....	6	37	Weaving OD Army Overcoatings.....	5	46
Electron Microscopy of Cellulose.....	6	37	Wool		
Fabric Pests.....	7	28	Acid and Alkaline Treatment of Wool. Analysis of the Selective Combination of Wool with Acids in Mixtures.....	5	42
Fluidity of Nylon Solutions in M-Cresol: Measurement of Chemical Damage in Nylon Textiles.....	6	37	Chemically Modified Wools of Enhanced Stability.....	6	41
Fundamentals of Testing the Burst Resistance of Fabrics. III. IV. Identification of Some Sulfonic Acid Reduction Products of Azo Dyes.....	12	27	Combination of Wool Protein with Acids in Mixtures, and Its Relation to the Acid Dyeing of Wool.....	5	42
Measuring Fiber Fineness.....	4	36	Combination of Wool Protein with Weak Acids.....	7	33
Measuring Fiber Fineness.....	6	36	Distribution of Cut Fiber Lengths in Wool Sampled by Cylindrical Tube Borings.....	5	38
Microscopical Identification of Lanital, Aralac, and Soybean Fibers.....	8	30	Effect of Alkaline Treatments on the Felting Properties of Wool.....	4	40
New Technique for the Analysis of Fiber Length Distribution in Wool.....	1	37	Extraction of Wool with Dichloroethane.....	10	40
New Design of Cloth Wearing Tester.....	3	39	Influence of Acid Dyes on the Setting Properties of Wool Fibers.....	12	28
New Method for Measuring Specific Surfaces.....	4	37	Microscopical Study of Dyed Wool.....	8	33
Physical Methods for Evaluating the Hand of Fabrics and for Determining the Effects of Certain Textile Finishing Processes.....	1	39	Modern Theory and Practice of Wool Dyeing. IX. Chrome Dyes: Choice of Method and Dyes.....	7	34
Porous Plug and Fibre Diameter Measurement. I. A Practical Method of Wool Fibre Diameter Measurement.....	6	36	Nature of the Reaction of Wool with Alkali.....	6	41
Porous Plug and Fibre Diameter Measurements. I. A Practical Method of Wool Fibre Diameter Measurement.....	7	29	New Technique for the Analysis of Fiber Length Distribution in Wool Part-Wool Blankets for Use in Barracks.....	7	38
Review of Organic Microchemistry.....	4	35	Sheep Wool, Reducing Properties of... Researches in Wool Felting. Part III Tickle in Wool Knit Goods. A Partial Answer to the Question of Why Some Fabrics Cause Skin Irritation.....	9	30
Serigraph Tests for Yarn Strength.....	9	29	As a Textile Processing Agent.....	9	32
Service Study of Women's Full-Fashioned Hosiery Manufactured from Four Varieties of Long Staple American Cotton.....	9	30	Wool Fiber: Porous Plug and Fiber Diameter Measurements. I. A Practical Method of Wool Fiber Diameter Measurement.....	7	29
Specific Surface Measurements on Compact Bundles of Parallel Fibers.....	4	36	Woolen Hosiery, Application of Rubber Latex to.....	6	43
Staple Length of Cotton.....	7	28	Woolen Piece Goods: Dyeing Woolen Piece Goods for the Navy—Piece Goods Dyeing with Leuco Ester of Indigo.....	6	43
Viscosity of Starches. Determination in a Rotating Cylinder Viscometer.....	5	37			
Twist: Effect of Twist on Contraction—Result of Studies Made on Single Carded Yarns.....	7	38	Y
